Mutuality

Pacific Life Insurance Company's organization is relatively unique as we are part of a mutual holding company structure; therefore, policy and contract owners are members of the company, and we are not driven by stock price when making decisions. Our structure allows us to develop innovative products that evolve with the needs of the families and businesses we serve. Our support goes beyond just product innovation; we select businesses and markets that we understand well, can excel in, and can provide value to our customers.

Pacific Mutual Holding Company has \$158 billion in assets and \$12.2 billion in equity¹ as of December 31, 2018.²

- Pacific Life Insurance Company is organized under a mutual holding company structure and operates for the benefit of its policyholders and contract owners.
- We have achieved ongoing recognition³ for high-quality service standards.
- We offer solutions that help you manage risks during all market environments.
- We maintain strong financial-strength ratings from major independent rating agencies.

FACTORS TO BE CONSIDERED BY FIDUCIARIES

The selection of an annuity provider for purposes of a pension benefit distribution is a fiduciary decision governed by the Employee Retirement Income Security Act of 1974 (ERISA). The Department of Labor issued Interpretive Bulletin 95-1 (IB 95-1) Section 2509.95-1, as amended, to provide guidance in the selection of an annuity provider. The content in the following paragraphs provide information from Pacific Life to respond to the criteria of IB 95-1.

In accordance with IB 95-1, plan fiduciaries must conduct an objective, thorough, and analytical search for purposes of identifying providers from which to purchase annuities. The bulletin sets forth factors that should be considered by fiduciaries in evaluating a provider's claims-paying ability and creditworthiness, including but not limited to:

- **The quality and diversification** of the annuity provider's investment portfolio.
- **The size of the insurer** relative to the proposed contract.
- **The level of the insurer's capital and surplus.**
- **The lines of business of the annuity provider** and other indications of an insurer's exposure to liability.
- **The structure of the annuity contract** and guarantees supporting the annuities, such as the use of separate accounts.

Pacific Life is a highly rated and well-diversified insurance company, and an experienced and innovative annuity provider.

PORTFOLIO QUALITY AND DIVERSIFICATION

(STATUTORY BASIS)

DISTRIBUTION OF INVESTED ASSETS

To maintain the quality of Pacific Life Insurance Company's underlying assets, we primarily invest in high-quality securities and commercial mortgage loans, and we closely monitor these investments. Pacific Life Insurance Company has a seasoned management team with experience in a variety of market environments.

Our investment approach limits our exposure to any single industry issuer or asset type, and ensures we are prepared to fulfill our commitments to our clients.

BOND¹ QUALITY— PERCENTAGE OF ASSETS IN EACH CLASS

The Securities Valuation Office of the National Association of Insurance Commissioners (NAIC) assigns quality ratings (corresponding to ratings from Moody's) to bonds held by insurance companies. Pacific Life Insurance Company's ratio of non-investment-grade bonds (NAIC 3–6) to total cash and invested assets of \$75.4 billion was 3.0%.

Total Bond¹ Investments **\$47.5 billion**

Bond¹ Quality

Investment Grade	95.2%
Non-Investment Grade	4.8%

BOND¹ BY MATURITY

Sophisticated risk-management programs and hedging strategies are employed to maintain net income and statutory capital levels even under extreme market conditions.

Bond maturity is closely matched with projected liabilities to reduce volatility and interest-rate risk.

¹Bonds include short-term investments unless otherwise noted.

THE STRUCTURE OF THE ANNUITY CONTRACT

AND GUARANTEES SUPPORTING THE ANNUITIES

The structure of the annuity contract should be examined by a fiduciary to understand the guarantees supporting the annuity. The general account is supported by the creditworthiness of the company's general account. A separate account can further secure the assets by using a portfolio of separate account assets insulated from the claims of other policyholders and creditors of the insurer. Any shortfall in the separate account is supported by the assets in the general account.

Pacific Transferred Buy-Out®

Completely transfer all pension risk and benefit liability from the plan sponsor to Pacific Life on either a partial (a portion of plan participants) or full (complete termination) basis.

Pacific Secured Buy-In®

Transfer the risk of investment performance, mortality, and plan experience from the plan sponsor to Pacific Life. The contract remains an asset of the plan, and thus it does not reduce the plan's funded status or trigger settlement accounting like a buy-out. A buy-in contract can be converted to a Pacific Transferred Buy-Out contract at any time with no additional charges.

Experience and Innovation

Pacific Life has been an innovator in pension risk-transfer solutions. Few firms offer our breadth of solutions or provide the same deep level of pension risk-transfer expertise. You can rely on Pacific Life as a single, trusted source to help you de-risk your plan, reduce plan volatility and its related impact on your company's balance sheet and financial statement, and secure lifetime retirement income for your employees.

- Experienced investment and actuarial staff
- First to offer Pacific Insured LDI®, an innovative and guaranteed alternative to best-efforts liability-driven investing
- First U.S. insurer to transact all three pension de-risking solutions:
 - Pacific Insured LDI
